Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 34-35 are rejected under 35 U.S.C. 102(b) as being anticipated by Eddy US 3,255,907.

Eddy '907 teaches a first ring (5) and second ring (7), extending at identical angles to the vertical axis, whereby the first ring engages the container neck, and whereby the first ring is bent into engagement with the second ring.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 31-32 are rejected under 35 U.S.C. 103(a) as being unpatentable over Brozell et al. US 6,848,590 in view of Eddy US 3,255,907.

Brozell '590 teaches a container with interrupted threads and a first conical spring (42), but fails to teach a second conical spring.

Eddy '907 teaches a first ring (5) and second ring (7), extending at identical angles to the vertical axis, whereby the first ring engages the container neck, and whereby the first ring is bent into engagement with the second ring.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the cap of Brozell '590, providing the sealing arrangement taught by Eddy '907, because both are drawn to solving the same problem, and are equally capable of sealing a container opening.

Response to Arguments

5. Applicant's arguments with respect to claims 1-30 have been considered but are moot in view of the new ground(s) of rejection.

6. Applicant's arguments filed 22 August 2005 have been fully considered but they are not persuasive.

Applicant's arguments that Brozell et al. US 6,848,590 cannot be used as prior art under 35 U.S.C. 103(c) are persuasive; however, Examiner notes the reference was published on 03 July 2003, and qualifies as prior art under 35 U.S.C. 102(a) because the invention was by another inventive entity.

Allowable Subject Matter

7. Claims 33 and 36 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
